

# Sandy City Business Watch

## *Business Watch Basics*

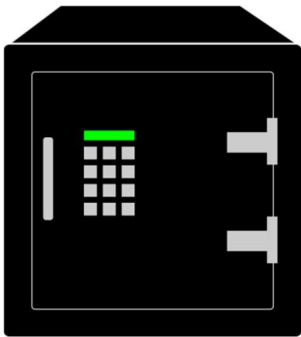

Trying to stay a few steps ahead of crime and wondering what a criminal may come up with next can be baffling. It seems no matter what we do to discourage crime; there is a new way to dupe unsuspecting business owners out of product, profits, and property.

Even with our best efforts to inform businesses how to protect themselves, one can feel overwhelmed with what crime prevention procedures is best for their company.

Starting with the basics will decrease your vulnerability:

- ☐ Adequate lighting
- ☐ Locks
- ☐ Alarm system
- ☐ Potential employee background checks
- ☐ When possible don't keep money on premises
- ☐ Lock money in safe
- ☐ Lock up inventory if possible
- ☐ Use strong or laminated glass windows
- ☐ Secure openings such as ventilation, crawl spaces, and attics to other businesses
- ☐ Join Sandy City Business Watch
